Blue Water Logistics IPO Opens today: Company Aims to Raise Rs.40.50 Crores on NSE Emerge

Mumbai, Blue Water Logistics Limited has announced its plans to go public with an Initial Public Offering (IPO) set to open on Tuesday, May 27, 2025, running through Thursday, May 29, 2025. The logistics company aims to raise up to Rs.40.50 crores through the offering, with shares scheduled to be listed on NSE Emerge, the SME platform of the National Stock Exchange.

The public issue comprises 30,00,000 equity shares with a face value of Rs.10 each, priced within a band of Rs.132 to Rs.135 per share. The offering is structured as a 100% book-built issue with a minimum lot size of 1,000 shares, making the minimum investment requirement between Rs.1,32,000 to

Rs.1,35,000 for retail investors.

The company's shareholding will expand from the current 80,00,000 shares to 1,10,00,000 shares post-issue, with the entire offering consisting of fresh shares and no offer for sale component.

Listing and Timeline

Blue Water Logistics shares are tentatively scheduled to debut on NSE Emerge on Tuesday, June 3, 2025. The three-day subscription window provides investors with ample opportunity to participate in the offering. Shreni Shares Limited has been appointed as the market maker with an allocation of 1,56,000 shares.

The company has outlined a clear roadmap for utilizing the net proceeds from the fresh issue. The

primary objectives include funding capital expenditure requirements through the purchase of vehicles and body building, addressing working capital needs, and supporting general corporate purposes. This strategic allocation reflects the company's focus on expanding its logistics capabilities and operational infrastructure.

Mr. Laxmi Narayan Mishra, Chairman & Whole-Time Director of Blue Water Logistics, expressed enthusiasm about the public offering. "We see this as an opportunity to not only grow the company but also contribute to a more sustainable future. We are excited about this new phase of development and are grateful to NSE to offer us NSE Emerge platform to list our Company," he stated.

Major S. Korean firms spend annual average of \$2.1 million on cybersecurity

Seoul, May 26 (IANS) South Korea's major companies spent an average of 2.9 billion won (\$2.1 million) per year on information protection, industry data showed on Monday.

According to data from the Korea Internet & Security Agency (KISA) and other sources, 10 local companies each invested over 100 billion won in cybersecurity over the past three years.

Samsung Electronics Co. topped the list, spending a total of 712.6 billion won from 2021-2023, followed by telecom giant KT Corp., which invested 327.4 billion won during the same period, reports Yonhap news agency.

SK Telecom Co., the country's largest mobile carrier that recently suffered a large-scale data breach, came in third with

251.5 billion won in spending.

Other companies in the top 10 include Coupang Inc., SK hynix Inc., LG Uplus Corp., Samsung SDS Co., Woori Bank, Naver Corp. and LG Electronics Inc.

In 2022, the South Korean government mandated that companies operating network infrastructure or generating over 300 billion won in annual sales disclose their cybersecurity investment.

"Many are more vulnerable to advanced hacking techniques, and some may have already been breached without even knowing it. A total of 746 companies reported their spending on information protection for 2023, investing a combined 2.1 trillion won, up from 1.5 trillion won by 658 firms in 2021.

The average annual spending per company increased 24.5 percent from 2.3 billion won in 2021 to 2.9 billion won in 2023.

However, experts warn that many South Korean firms remain highly vulnerable to cyberattacks due to relatively weak security capabilities, said the report.

"In terms of investment, most companies in Korea have far lower security capabilities than SK Telecom, which was the latest victim of a cyberattack," one industry insider said. "Many are more vulnerable to advanced hacking techniques, and some may have already been breached without even knowing it. Companies need to stay alert and undergo thorough security checks," the insider added.—IANS

Business Brief

Zepto CEO accuses rival company's CFO of targeting them with a smear campaign

New Delhi, May 26 (IANS) Aadit Palicha, the CEO and Co-founder of quick delivery platform Zepto, has alleged that the chief financial officer (CFO) of a rival company is running a smear campaign against them over the past few days.

In a LinkedIn post, Palicha said the spam campaign includes "calling our investors to make wild allegations about us with no empirical evidence, giving out false numbers/Excel sheets on Zepto through sources known to journalists, and paying bots on social media to spread a negative narrative".

He, however, did not reveal the name of the rival firm. In the quick commerce space, Zepto competes with Blinkit (owned by Eternal which was earlier Zomato), Swiggy Instamart, Flipkart Minutes and Tata BigBasket, among others. "Candidly, this episode is below the stature expected of the CFO of a high-quality company, and makes it obvious that they are starting to get nervous about how fast Zepto's EBITDA is improving," said Palicha. He further stated that Zepto has grown from approximately 750 crore of gross order value (GOV) per month in May 2024 to 2,400 crores of GOV per month in May 2025. "Our definition of GOV has Fruits and Vegetables at selling price and includes Ad Revenue. Our EBITDA has improved by 20 absolute percentage points (2,000 basis points) from January 2025 to May 2025, and is approaching single-digit territory.

Bumper RBI dividend to give extra 0.15 pc fiscal boost to GDP: Report

New Delhi, May 26 (IANS) The incremental gain from the higher RBI dividend is expected to partly offset potential shortfalls in tax revenues and nominal GDP growth, a report said on Monday, adding that supported by a robust RBI dividend, system liquidity is likely to improve further.

This marks the third consecutive year where the actual dividend has exceeded the initial budgeted number. This implies an extra fiscal boost of 0.15 per cent of GDP. Accordingly, "we maintain our FY26 gross FD/GDP target at 4.4 per cent, in line with the budget estimate," according to the report by Emkay Global Financial Services. "We expect Q1 FY26E to be in super surplus liquidity (with June tracking Rs 4-4.5 trillion), led by high RBI dividend of Rs 2.68 trillion and a sharp seasonal moderation in currency in circulation (CIC), along with RBI OMOs," the report added. The RBI has announced a record dividend of Rs 2.68 trillion to the Centre for FY25, which is around 28 per cent higher than the Rs 2.1 trillion assumed in the FY26 Union Budget. While the annual report is yet to be released, which will provide detailed insights into the balance sheet, "we understand the bumper dividend is likely driven by higher gross FX sales of \$398 billion in FY25 compared to \$153 billion last year, which boosted foreign exchange income, increased interest income from G-secs, and lower provisioning for revaluation losses on assets, amid possible MTM (mark-to-market) gains on both foreign and domestic asset holdings," the report explained.

Probe into SK Telecom data breach expands to KT, LG Uplus

Seoul, May 26 (IANS) A joint government-private investigation team looking into SK Telecom Co.'s recent large-scale data breach has extended its probe to the servers of two other major mobile carriers, KT Corp and LG Uplus, but found no signs they have been compromised, industry sources said on Monday. Initially, the team had asked

local telecommunications and platform companies to conduct their own cybersecurity inspections. However, the approach was revised last week amid growing concerns that hackers using BPFDoor malware variants may have also targeted other South Korean mobile carriers, according to the sources. Following the expanded investigation,

no traces of hacking activity have yet been found on the servers of KT or LG Uplus, they added, reports Yonhap news agency. In a media briefing last week, the investigation team revealed interim findings indicating that 25 malware variants had been discovered on 23 servers belonging to SK Telecom. These included 24 variants of the BPFDoor malware and one variant of WebCell. Two of the affected servers had been used as temporary storage for personal data, such as names, birthdates, phone numbers and email addresses, as well as international mobile equipment identity (IMEI) data.

Hyundai Motor Group launches \$91.4 million startup investment fund

Seoul, May 26 (IANS) Hyundai Motor Group said on Monday it has established its third startup investment fund to support innovative venture companies with cutting-edge technologies and ideas. The group's third fund under its ZER01NE accelerator program has been set up at a scale of 125 billion won (US\$91.4 million), with financial participation from group affiliates, reports Yonhap news agency. Hyundai Motor Co. and Kia Corp. each invested 40 bil-

lion won, while Hyundai Motor Securities Co. contributed 10 billion won. Additional investments came from seven other units, including Hyundai Mobis Co., Hyundai Glovis Co. and Hyundai Rotem Co. The fund aims to identify and invest in promising startups in South Korea, Japan and Southeast Asia, particularly those working in the fields of artificial intelligence, robotics, hydrogen and cybersecurity. The group said it will also seek strategic collaboration opportunities between the selected startups and its affil-

iates, with a focus on internalizing next-generation innovations. Since launching the ZER01NE platform in 2018, the group has established two previous funds. Together, those funds have backed 105 startups and generated more than 200 collaboration cases across the group. "By deepening collaboration with innovative startups, we aim to generate meaningful synergies across our affiliates and accelerate our future-ready business initiatives," said Noh Kyu-seung, head of the ZER01NE division at Hyundai Motor Group.

Meanwhile, Hyundai Mobis has filed more than 7,500 patents over the past three years to strengthen its global competitiveness through proprietary technologies in future mobility and electrification, according to the company on Monday.

E AUCTION NOTICE

**APPROX 3,72,200 KG OF WATER AFFECTED VARIOUS TYPES OF ONION & GARLIC**
